

BINAYAK MAHARANA

Frontend Developer | React.js · Angular · TypeScript · JavaScript · Figma

binayakmaharana2000@gmail.com | +91 76849 44450 | linkedin.com/in/binayak-maharana | Bhubaneswar, Odisha

PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of experience building scalable, high-performance web applications using React.js and Angular. Skilled in UI/UX design with Figma — from wireframing and prototyping to pixel-perfect implementation. Experienced in delivering production-grade projects including NGO platforms, enterprise dashboards, and LMS systems, with expertise in animation-driven UI using GSAP and THREE.js. Proficient in Agile workflows, Git-based version control, and cross-functional collaboration.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3, Core Java
Frameworks:	React.js, Angular, Node.js, Express.js
UI / Styling:	Angular Material, Tailwind CSS, Bootstrap 5, Flexbox, CSS Grid, GSAP, THREE.js (WebGL)
Design:	Figma — UI Design, Wireframing, Prototyping, Design Systems, Design-to-Code
Concepts:	Component Architecture, RxJS, Lazy Loading, REST API Integration, Responsive Design, RBAC
Tools:	Git, GitHub, VS Code, Chrome DevTools, npm, Figma
Soft Skills:	Problem Solving, Cross-functional Collaboration, Agile / Iterative Development

PROFESSIONAL EXPERIENCE

Software Developer (Frontend)

Aug 2025 – Present

A4Conserv Pvt Ltd | Bhubaneswar, Odisha

- Engineered and maintained 3+ production web applications using React.js and Angular, serving real end-users in the education sector
- Developed complete NGO website (A4MAM) using Angular, THREE.js WebGL animations, and GSAP ScrollTrigger — cinematic 16-section UI with glassmorphism design system
- Designed UI/UX in Figma for multiple projects — wireframes, component libraries, and design systems — then implemented pixel-perfect in code
- Delivered school website using React.js, Tailwind CSS, and GSAP — smooth animations, responsive layouts, cross-browser compatibility
- Architected Angular-based LMS dashboard with course, chapter, and video management modules, improving admin workflow efficiency
- Built enterprise Office Tracker & Task Management System with RBAC, project-task-subtask hierarchy, and real-time analytics dashboard
- Implemented lazy loading and RxJS-based state management to optimize Angular app performance
- Created 20+ reusable Angular and React components, reducing code duplication and accelerating team development velocity
- Collaborated in cross-functional Agile teams through structured sprints and code reviews

Frontend Developer Intern – MERN Stack

Apr 2025 – Aug 2025

Eduvate Skills

- Designed responsive UI components in Figma and implemented them using React.js, following component-based architecture and DRY principles
- Integrated frontend with Node.js/Express backend APIs; implemented full CRUD functionality for MERN stack capstone project
- Applied Git-based version control and participated in team code collaboration workflows
- Optimized component performance through efficient state management and code structuring

IT Administrator

Apr 2023 – Oct 2024

Unigold Finance Ltd. | Bhubaneswar, Odisha

- Managed IT infrastructure, user systems, software tools, and digital documentation for internal operations
- Developed strong analytical and problem-solving skills directly applicable to software engineering

KEY PROJECTS

A4MAM — Mission Against Malnutrition (NGO Website)

Angular · TypeScript · THREE.js · GSAP · Bootstrap 5 · Figma

- Designed complete UI in Figma — dark emerald design system, component library, and all section wireframes
- Built 16-section Angular SPA with THREE.js WebGL molecular spiral in hero and GSAP ScrollTrigger animations throughout
- Developed glassmorphism design system, interactive SVG 1000-Days chart, and clinical Before/After recovery case study
- Fully responsive from 320px to 4K — THREE.js disabled on mobile for performance, CSS clamp() for fluid typography

Office Tracker & Task Management System

Angular · TypeScript · Angular Material · RxJS · Figma

- Designed complete dashboard UI/UX in Figma — wireframes, user flows, and component specs before development
- Built enterprise-grade system with RBAC, multi-level project hierarchy, real-time productivity metrics, and lazy loading

LMS Dashboard – Learning Management System

Angular · TypeScript · HTML · CSS · Figma

- Designed admin interface in Figma with full user journey mapping, then built dynamic course, chapter, and video management modules
- Leveraged Angular data binding, reusable modules, and component-driven architecture for maintainability

HRMS Web Application

React.js · JavaScript · Tailwind CSS · Figma

- Self-initiated project — designed end-to-end in Figma, then developed with employee, leave, attendance modules and analytics dashboard

School Website

React.js · Tailwind CSS · GSAP · Figma

- Designed all pages and mobile breakpoints in Figma, then built complete institutional website with GSAP animations and full responsiveness

EDUCATION

Bachelor of Technology (B.Tech) – Mechanical Engineering

2018 – 2022

Raajdhani Engineering College, Bhubaneswar (BPUT Affiliated) | CGPA: 8.3 / 10

CERTIFICATIONS

- **MERN Stack Development** — Eduvate Skills | React.js, Node.js, Express.js, MongoDB, REST APIs
- **Software Testing (Manual)** — JAVA Technocrat, Bhubaneswar | Manual Testing, Test Case Design, Bug Reporting, Core Java OOP
